

14.10.2015

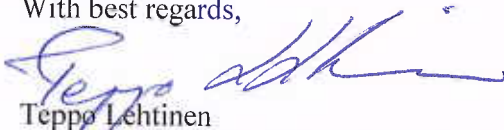

Finnish comments on the withdrawal of Mandate M/136 'Mandate for construction products in contact with drinking water'.

Finland asks the Commission to prepare for SCC consultation a clear road map including timetable how to replace Mandate M/136 with Addendums to existing product mandates.

We can accept the withdrawal of Mandate M/136 only when consultation of the SCC is performed on the above mentioned road map.

See also my previous letter concerning withdrawal of Mandate M/136 dated 30.6.2015.

With best regards,

Teppo Lehtinen
Head of the Finnish Delegation to SCC
